

# RESOURCES AND SERVICES

The following is a non-exhaustive list of resources and services provided by or closely affiliated with Churches of Christ, the comprehensiveness of which is limited by space and time. Select services that are more “national” in scope are included here. Services that are aimed primarily toward foreign countries are generally excluded with a few exceptions. Where resources could be listed under multiple categories, only the one deemed to best describe the organization was used. Those preceded by an asterisk (\*) have a presence in the *Featured Ministries, Resources, and Services* section of this book.
