Things
to Do
Together

Go on a Color Walk

Start walking through your home. Tell your child to look for things that are blue and touch or point to those things. Do with several colors. If nice weather, go outside for your color walk. Remember to thank God for eyes to see pretty colors.

Sunglasses Fun!

Let your child have fun looking at his world through different sunglasses. Let him try on his and other family member's sunglasses. Ask him if things look different. Help him look at something without sunglasses and then with the sunglasses. Remember to thank God for eyes to see.
